# BreastCheck

## Our national breast screening programme for women aged 50 to 69.

## Our mission

To improve the health outcomes for women with breast cancer and reduce the number of women who die from breast cancer.

## Our vision

We aim to provide high quality screening services to find and treat breast cancer at the earliest possible stage, to improve the quality of life for women diagnosed with breast cancer.

## Our values

### Care

We work in partnership with screening participants, staff and the general population to provide a service that is based on quality, equity and respect.

### Compassion

We support each other, showing kindness and understanding, even when faced with difficult decisions and situations.

### Trust

We build relationships that are based on openness, honesty and accountability to foster a culture where people feel safe and believe in each other.

### Learning

We promote a culture of partnership, reflection and continuous improvement in providing a service based on innovation and excellence.

## Our services

- We provide screening and treatment free of charge.
- We respect your dignity and privacy during screening and treatment.
- We provide information and support to help you to make informed decisions based on your choices.
- We review our performance to meet international clinical standards.
- We value our highly qualified and skilled staff and provide continuous training and development opportunities to deliver the best possible care.
- We promote team-working and also work in partnership with other healthcare providers.
